

# ABHISHEK SWAMI

Latur, Maharashtra, India

☎ [+91-8956008591](tel:+91-8956008591) ✉ [abhishekswami1435@gmail.com](mailto:abhishekswami1435@gmail.com) [in LinkedIn](#) [Github](#) [Portfolio](#)

## SUMMARY

---

Result oriented Full-Stack Developer with hands-on exposure to Node.js, Express, MongoDB, and API development, specializing in data modeling and backend architecture. I bring a strong product mindset, natural curiosity, and solid problem-solving skills to design scalable data models, manage databases, and build high-performance backend systems. Dedicated to delivering clean, efficient, and scalable solutions for real-world products.

## EDUCATION

---

**Vilasrao Deshmukh Foundation Group of Institutions, Latur** 2021 - 2025

*B.Tech - Computer Engineering - CGPA - 7.70/10*

**Shamgir Kanishtha Mahavidhyalay, Latur** 2020 - 2021

*12th - Percentage - 82.17%*

**Parimal High School, Latur** 2018 - 2019

*10th - Percentage - 86.20%*

## TECHNICAL SKILLS

---

**Languages:** C, C++, SQL, HTML, CSS, JavaScript

**Frameworks:** React.js, Next.js, Node.js, Express.js, Tailwind CSS, Bootstrap

**Database:** MongoDB, MySQL

**Other Tools:** Git, GitHub, Postman (API Testing)

## KEY PROJECTS

---

**SkillMatch - Job Portal Website** [↗](#) | React, TypeScript, Supabase, Clerk, Tailwind CSS, [GitHub](#) | [Live](#)

- Developed a full-featured job portal using React, TypeScript, and ShadCN UI, enabling seamless job posting and application tracking with a modern, responsive UI.
- Implemented secure authentication through Clerk, enabling Google and email/password logins that enhanced user security protocols and optimized the application process using React Hook Form with Zod validation.
- Designed a professional landing page and advanced filtering system, allowing users to bookmark jobs and manage applications efficiently, with Supabase handling job, user, and application data storage

**Netlink - Social Media Website** [↗](#) | Node.js, Express, MongoDB, EJS [GitHub](#) | [Live](#)

- Designed and implemented a full-stack social media application using Node.js, Express, MongoDB, and EJS, enabling users to create, like, and interact with posts, fostering a dynamic social environment.
- Implemented server-side logic using Express and optimized database management with MongoDB, ensuring secure and efficient data handling.
- Integrated dynamic EJS templates for responsive front-end design, optimizing user interface and experience.

## ACHIEVEMENTS

---

- Active contributor on **GitHub** with contributions in more than **30 repositories**. [↗](#)
- Twice participated in **zonal chess** tournaments, achieving strong results through strategic play.
- A daily habit of coding and maintaining a streak of **100+** days code.

## HOBBIES

---

- Programming and building side projects
- Playing chess and improving strategic thinking
- Reading books, especially on philosophy and personal growth
